

Junior Rafael Carpenter

Senior Full Stack Developer

I am a passionate software developer with a strong background in computer science and over 8 years of experience in IT, including more than 4 years in software development. I have extensive experience in designing, developing, and maintaining innovative applications, focusing on creating efficient, high-quality solutions that meet clients' specific needs.

Languages

English:

Intermediate

Spanish:

Native

French:

Básic

Skills

Backend

.NET 8 / C#, ASP.NET Core Web API, Microservices, REST APIs, Entity Framework Core, Dapper, spring boot, Quarkus, Hibernate, Micronaut, JSF, Node.Js

Frontend

Angular, React, JavaScript / TypeScript

Base de Datos

SQL Server, PostgreSQL, SQL

Cloud & DevOps

Azure, Docker, Kubernetes, Git, CI/CD

Testing & Calidad

Unit Testing (xUnit, NUnit), Continuous Integration, Clean Architecture

IA / Machine Learning

Python (ML basic), Scikit-learn, Microsoft Semantic Kernel (.NET), OpenAI API, Prompt Engineering

Experience

Senior Backend Developer

Wepsys - C. Arístides García Gómez No. 51 – Santo Domingo

Jan 2025 – Present

- Developed and maintained backend services in .NET 8 using Clean Architecture, applying the MediatR pattern and Repository design for modularity and maintainability.
- Implemented asynchronous communication with RabbitMQ to enhance scalability and decouple microservices.
- Worked with AWS Workspaces, Docker, Kubernetes, and CI/CD pipelines to efficiently deploy and orchestrate applications.

Senior Software Developer

Novacomp - Costa Rica, Curridabat

Apr 2025 – Aug 2025

- Developed and maintained backend services using .NET and Web API for high-performance enterprise applications.
- Implemented data access layers with Dapper, optimizing queries and ensuring efficient interactions with SQL Server databases.
- Designed and implemented secure file exchange processes via SFTP, ensuring reliable data transfers between systems.

Senior Backend Developer

Banco Ademi - Av. Pedro Henríquez Ureña 78 – Santo Domingo

July 2024 – Aug 2025

- Development and maintenance of a transaction system in Oracle, ensuring data integrity and concurrency control.
- Optimization of SQL queries and implementation of CQRS, improving scalability and transaction performance.
- Implementation of RESTful and SOAP APIs for efficient integration with other systems.

Education

Software Engineering

UNICARIBE University Autopista 30 de mayo Km. 7½, Santo Domingo 10100

Jan. 2024 – Present

Software Development Technologist

ITLA Las Américas Highway, Km. 27, La Caleta, Calle 27, 11606

Sep. 2019 - Dec 2022

Projects

- Mobile Application Development**
Developed a mobile application optimized for barcode scanning, improving processing speed by 50%.
- Managed printing functionality within an application**
Implemented an efficient printing module, reducing response time by 30% and improving compatibility with multiple formats.
Migrated an application to a new platform/Environment
This led the migration of the system to a new architecture, optimizing performance and reducing downtime by 20%.

Achievements

- Designed an optimized search algorithm, improving processing speed by 50% in a barcode scanning application.
- Successfully led to the versioning migration of an application, reducing downtime by 20% and improving system stability.
- Implemented optimization strategies that significantly reduced load times in mobile applications.
- Consistently exceeded delivery expectations on client projects, excelling in management and leadership.

Certifications and Courses

- Foundational C# with Microsoft
- Fundamentals of DevOps, APIs, and Microservices Architecture
- Master's in SQL Server: From Beginner to Professional
- Kubernetes and Docker with .NET on Azure and Google Cloud Platform
- Git & GitHub: Complete Version Control System from Scratch
- Unit Testing .NET 9 Applications with xUnit.NET
- React: From Beginner to Expert (Hooks & MERN)
- Introduction to Artificial Intelligence (AI)

Training and Workshops Delivered

Hospital General Plaza de la Salud [4/2024] - Kick-off

Ceo consultoría [8/2023]- [9/2023]
Training
